

City of Bayfield WI: Last revised by L MacDono

Field	Value	City of Bayfield 2011 Baseline*	City of Bayfield 2012 Baseline*	City of Bayfield 2014 Goal*	City of Bayfield 2017 Goal*
	Wisconsin Legacy Communities Strategy Options				
	The purpose of the strategy options matrix is to provide a broad list of best management practices that encompass several elements of sustainability including transportation, energy, land use, water, and waste. This list is not inclusive.				
	Prospective signatories should use the strategy options to gauge environmental performance and then use this baseline to strive for superior results.				
	Superior environmental performance may be achieved when municipalities use the strategy options to develop a sustainability plan that reduces their overall negative impact on the environment.				
	TRANSPORTATION DEMAND MANAGEMENT:				
	Transportation demand management strategies aim to reduce GHG emissions and VMT by influencing change in individual behavior. These strategies encourage walking, bicycling, and transit as modes of transportation within a community and seek to curb the number and length of trips by vehicle.

	TRANSPORTATION SYSTEM MANAGEMENT				
	Transportation system management strategies aim to reduce GHG emissions and VMT by improving the overall performance of a transportation system. These strategies improve existing infrastructure, introduce new technology, and plan for the future of the system.

	ZONING AND DEVELOPMENT				
	Zoning and development strategies work toward improving the overall environmental, economic, and social health of a community by promoting mixed-use and infill development, walkable neighborhoods, and an overall sustainable lifestyle.				

LA

2	<u>Infill Development</u>					
5	Identify priority areas for infill development, including those eligible for brownfields funding.	5	5	5	5	
1	Create land bank to acquire and assemble priority infill sites	0	0	1	1	
1	<u>Develop an inventory of known contaminated properties for reuse planning, with possible GIS application</u>	1	1	1	1	
	<u>Walkscore</u>					
10	Measure Walkscore at 10 random residential addresses per Census tract, compute average, and improve upon overall score	0	3	5	10	
	<u>Zoning</u>					
5	Adopt traditional neighborhood design ordinance (if population is less than 12,500)	0	0	2	3	5
5	Zoning for office and retail districts permits floor-area ratio > 1, on average.	0	0		5	5
8	Zoning for office and retail districts requires floor-area ratio > 1, on average.	0	0		8	8
5	Zoning code includes mixed use districts	5	5		5	5
8	Mixed-use language from Smart Code TBA.	5	5		5	5
	NATURAL RESOURCE MANAGEMENT					
	Natural resource management strategies seek to conserve, preserve, protect and promote a community's greenspace, wildlife, wetlands and waterways for this and future generations by promoting pervious surfaces and adequate setbacks.					
	<u>Canopy</u>					
3	Adopt tree preservation ordinance per GTLC standards.	3	3		3	3
4	Set a tree canopy goal and develop a management plan to achieve it	4	4		4	4
2	Require trees to be planted in all new developments	2	2		2	2
2	Certification as Tree City USA	2	2		2	2
	<u>Mowing</u>					
2	Local government rights of way mown or cleared only for safe sightlines and/or to remove invasive species.	0	0		2	2
	<u>Water Protection</u>					
10	Establish 75-foot natural vegetation zone by surface water.	n/a	n/a	n/a	n/a	Waterfront is
5	Inventory wetlands and insure no net annual loss.	0	1		5	5
	COMMUNITY ENERGY USE					
	Community energy use strategies encourage energy efficiency and the use of renewable fuels to reduce total energy consumption throughout the community					
	<u>Community Energy Use Policies</u>					
6	Use PACE financing	0	0		0	6
1	Watt meters available to the public	1	1		1	1
10	Adopt Residential Energy Conservation Ordinance (time-of-sale certification and upgrades).	0	0		0	0
	<u>Measuring Community Energy Use</u>					
4	Work with local utilities to calculate total electricity and natural gas consumption annually, beginning with the fifth year before entering the program.	4	4		4	4
1	OEI Energy Independence Community.	1	1		1	1
	MUNICIPAL ENERGY USE					
	Municipal energy use strategies encourage municipal employees to conserve energy, preserve the environment, and decrease greenhouse gas emissions from municipal facilities, services, and vehicle fleets.					
	<u>Government Energy Use Policies</u>					
5	Include transportation energy/emissions as criterion in RFPs for purchases of goods over \$10,000.	0	0		0	5
3	Develop list of lighting, HVAC and shell improvements to raise Energy Star Portfolio Manager or LEED EBO&M score	0	0		3	3
3	Reduce motor fuels use for non-transit activities --	3	3		3	3
6	Provide transit passes at 50 percent or more off the regular price and/or provide parking cash-out options for local government employees.	n/a	n/a	n/a	n/a	6
5	Streetlights operate at 75 lumens/Watt or higher	5	5		5	5
3	Stoplights are LED or functional equivalent	n/a	n/a	n/a	n/a	No stoplight
5	Municipal electricity purchases are at least 5 percentage points higher in renewable content than the statewide renewable portfolio standard requires. Calculation may include self-generated power and purchased offsets.	0	0		0	5 of Bayfield C
	<u>Measuring Government Energy Use</u>					
5	Complete EPA Energy Star Portfolio Manager spreadsheet for government energy use. Or score existing buildings with LEED EBO&M.	0	0		5	5
2	Calculate annual government fleet use of motor fuels, in gallons of petroleum and biofuels, beginning with the fifth year before entering the program.	2	2		2	2
10	All new and renovated municipal buildings must meet LEED Silver or greater.	0	0		0	10
	WATER USE CONSERVATION					
	Water Conservation strategy options set baselines and goals for water and energy performance in municipalities. They measure progress and promote water conservation by the government, business, and the community at-large.					
	<u>Water Conservation</u>					

ENERGY

W A T E R	06-Jan	Track water and sewer use annually, beginning with fifth year before entering program, and develop plan for reductions.	6	6	6	6	
	4	Develop a water loss control plan with targets below the 15% required by the state and include a system-wide water audit implementation and time table.	4	4	4	4	
	2	Join EPA's WaterSense Program for water utilities or the Groundwater Guardian Green Sites program and promote them to local business.	0	0	0	2	
	6	Use block rates and flat rates to encourage water conservation among residential, commercial, and industrial users.	0	0	6	6	
	1	Financial assistance for sewer lateral replacements.	0	0	0	1	
	2 to 6	Upgrade water utility equipment (e.g., variable frequency drive motors) to achieve energy efficiency.	0	0	0	3	
	3	Infiltration and inflow reduction by 10%	3	3	3	3	
	5	Wastewater biogas captured and used in operations.	na/	n/a	n/a	n/a	5
	5	Plan for replacing all toilets using > 1.6 gpf and annual progress sufficient to reach 90 percent replacement in 10 years.	0	2	5	5	
		Local Government Use					
	2	Install waterless urinals in men's restrooms at municipal facilities (city hall, parks, etc.)	0	0	0	2	
	3	All outdoor watering by local government, excluding parks and golf courses, from rain collection.	0	0	0	3	
	4	Develop a water efficiency and conservation plan for municipal buildings.	0	1	4	4	
		STORMWATER MANAGEMENT					
		Stormwater Management strategy options encourage the use of best management practices to achieve a reduction in the amount of harmful pollutants introduced to our streams, rivers, and lakes.					
3	Develop a regular street sweeping program to reduce total suspended solids	3	3	3	3		
3	Stormwater utility fees offer credits for best management practices such as rain barrels, rain gardens, and pervious paving	n/a	n/a	n/a	n/a	No stormwat	
2	Inventory all paved surfaces (e.g., by GIS mapping), and develop a plan for reduction	2	2	2	2		
2	Work with commercial or light industrial businesses to develop stormwater pollution plans	2	2	2	2		
	WATER AND DEVELOPMENT						
	Water and Development strategy options link water conservation and the preservation of land, wetlands, and wildlife habitat while promoting compact development, restoration and rehabilitation efforts, and long-term planning.						
	Land Development						
5	Identify key green infrastructure areas during plan development and/or implement a plan to acquire and protect key green infrastructure areas	5	5	5	5		
	Waters, Wetlands, and Wildlife						
1 to 6	Replace concrete channels with re-meandered and naturalized creeks, wetlands, or swales	n/a	n/a	n/a	n/a	6	
3	Develop a system for identifying culverts that obstruct fish migration and install fish friendly culverts where needed	n/a	n/a	n/a	n/a	3	
4	Provide incentives for protection of green infrastructure, sensitive areas, important wildlife habitat, or for the restoration or rehabilitation of wetlands or other degraded habitats such as credit towards open space or set-aside requirements	4	4	4	4		
	WASTE MANAGEMENT AND REDUCTION						
	Waste Management and Reduction strategy options encourage municipalities and their citizens to divert organics and recyclables from landfills and properly dispose of hazardous materials in an effort to reduce waste in a community.						
3	Community waste stream monitored at least annually. Waste reduction plan prepared and updated annually.	0	1	3	3		
4	Waste and materials management plan based on "zero-waste" principles, with specific goals, prepared and updated annually	0	0	4	4		
3	Construction/deconstruction waste recycling ordinance	0	0	0	3		
3	Mandatory residential curbside recycling pickup that covers paper, metal cans, glass and plastic bottles	3	3	3	3		
5	Develop a municipal collection program that encourages the diversion of food discards, yard materials, and other organics from landfills to composting or anaerobic digestion with energy recovery	0	1	1	5		
3	Develop and promote programs that dispose of household hazardous, medical, and electronic waste	3	3	3	3		
4	Use anaerobic digesters to process organic waste and produce energy	n/a	n/a	n/a	n/a	Not feasible.	
3	Implement municipal ordinances requiring manufacturer takeback for fluorescent bulbs, thermostats and other mercury-containing devices	0	0	0	3		
2	Ordinances in place to reduce the usage of phone books as well as single-use shopping bags, styrofoam food containers and other disposable packaging	0	0	0	2		
2	Pay-as-you-throw system implemented by municipality or required of private waste haulers	0	0	0	2		
1	Use public education and outreach to promote recycling, backyard composting, product re-use and waste reduction	1	1	1	1		

38

362 Possible points as proposed.

	2011	2012	2014	2017	n/a
	85	100	157	240	58
	85/304	100/304	146/304	227/304	
	% achieved	% achieved	% achieved	% achieved	
	27.96%	32.89%	51.64%	78.95%	

As a small community, we are looking at goals in 2 year & 5 year increments. We understand that some may be accomplished in less time, but the reality is that we have limited resources and staff.
